

# HALLIBURTON

---

To The Integrated Solutions Team

I would like to thank all of you for your work with the Halliburton – Sonatrach Training Program. All aspects of your group have been a pleasure to work with. The English instructors were all very professional not only in delivering their content but also in working with us on difficulties that arose during the module. The support from your office was equality as impressive. Any questions asked of you were answered quickly and clearly. As you know when starting a new program there are things that can be over looked and left to fall through the cracks. Your organization of your portion of the program was superb. Nothing was overlooked and everything ran smoothly with no mistakes. I hope to work with you on other projects in the future.

Regards

Clayton Easley  
Sr. Technical Instructor Halliburton Energy Services.
